Creating Your Account and Registering for Class
Rev. 07/25/17

This is a visual guide for high school students registering for early college classes (dual credit, youth options, or youth apprenticeship) courses at Madison College.

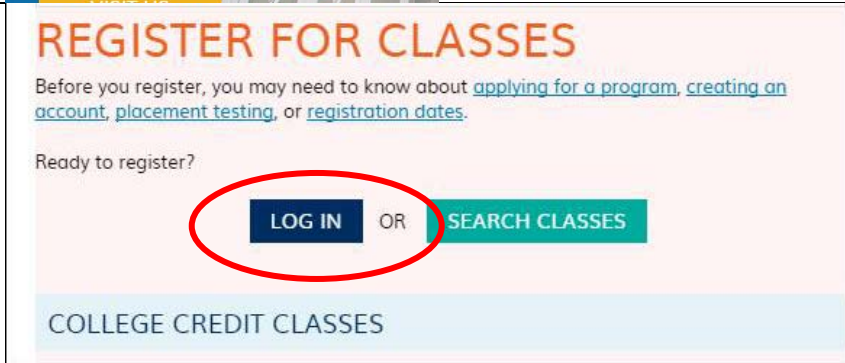

What is the registration process?

In order to register into a Madison College class, students must:

1. Create a student account *online* through our website.
2. Register for class through the myMadisonCollege dashboard.
3. Complete To-Do items as requested by the system.

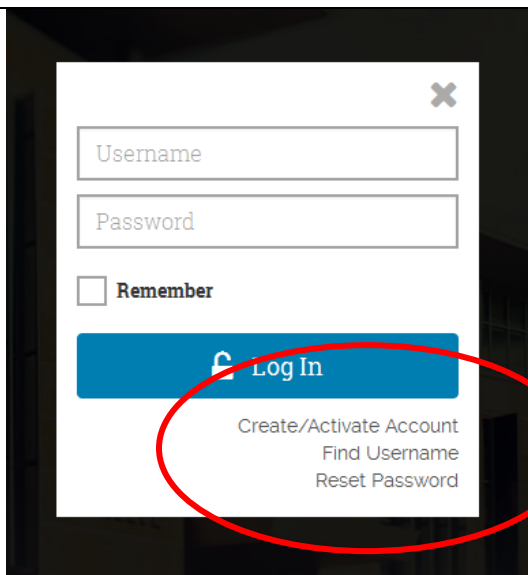

Important notes:

1. Pay attention and slow down! Errors are not easily or quickly fixed and it is your responsibility to take the action necessary to fix errors when they do happen.
2. This process creates your official record with the college – use **correct capitalization and spelling**. Texting language and abbreviations are not acceptable.
3. Use your legal name, not a nickname.
4. You will need to remember your student ID number and user name – it stays with you forever! This is your responsibility, not your teacher’s... **Write them down!**

| ACCOUNT CREATION | |

| <p>You must have an account with the college so the first couple of steps are to create your account. If you already have a student ID number, please go to page 5 for registration.</p> <p>Go to the Madison College homepage. Click on REGISTER FOR CLASSES on the left-hand side.</p> |  |
| <p>On this screen, choose the “log in” button.</p> |  |

Enter as much information as you can; however, date of birth, legal first (**not nickname**) and last name are the only required fields.

Word of advice: if you think you will be coming to us in the future and would be applying for any type of financial aid, your Social Security Number **WILL BE REQUIRED**.

Click **SEARCH** on the bottom.

The system searches and if you have a record with us, provides you the student ID number and username.

If no record is found, you will be sent to the following screen:
